**Delta water, fisheries  
topic of public hearing**

State and federal officials will come to the Delta at 6 p.m. Wednesday for a public hearing on plans to restore Delta fisheries and make water supplies more reliable for 22 million Californians.

The meeting is at Jean Harvie Center, 14273 River Road, Walnut Grove.

A consortium of agencies in the CalFed Bay-Delta Program have proposed alternatives for widening Delta channels or building a Peripheral Canal around the region. The group also has proposed improvements in Delta fish and wildlife habitat.
